The King's Fund  
No. 11 Cavendish Square  
London  
W1G 0AN

[REGISTER NOW](#)

We are delighted to announce the inaugural GAIN 2017 medical education meeting: Fungal infections – new challenges in vulnerable populations. Taking place in London this September, this medical education event\* will provide an engaging opportunity to discuss three key themes:

- Combatting emerging fungal pathogens and resistant organisms – including *C. auris*, *C. glabrata* and *A. fumigatus*
- Fungal infections in vulnerable populations – including patients with respiratory disorders, autoimmune disorders, haematological malignancies, the ICU, and paediatric patients
- Stewardship – it's all about the money (debate session)

The meeting will combine interactive lectures, workshops, and debate sessions to create an interdisciplinary platform for sharing knowledge and best practice.

We hope you can join us and our faculty of experts for this 1.5-day educational event for healthcare professionals in the UK and Ireland.

### GAIN 2017 STEERING COMMITTEE:

Prof. Malcolm Richardson (Manchester, UK)  
Prof. Gordon Ramage (Glasgow, UK)  
Dr Ignacio Martin-Loeches (Dublin, Ireland)  
Prof. Rosemary Barnes (Cardiff, UK)  
Dr Samir Agrawal (London, UK)

## WANT TO BE INVOLVED FURTHER? TAKE PART IN OUR CASE STUDY SESSION!

As part of our plenary programme we are including the opportunity for six delegates to present their own case studies. If you would like to submit a case study, please ensure your case study presentation meets the following criteria:

- Encompasses one of the main themes of the meeting and has a valid learning point
- Is no longer than 15 minutes in duration
- Includes high quality images

Please submit your case study via email to [#GAIN@gilead.com](mailto:#GAIN@gilead.com). All submissions will be assessed for their relevance and educational content by the GAIN 2017 Steering Committee, and the chosen applicants will get to present at the meeting and receive a GAIN 2017 presenter's certificate.

\* CPD accreditation is currently being sought from the Royal College of Pathologists.
