

INSTITUT PASTEUR COURSE - EDUCATION CENTER

Medical mycology

Institut Pasteur, Paris, March 18-April 12, 2019

This **four-week** course is intended for microbiologists (MDs, PharmDs, PhDs & veterinarians) willing to catch up with the most recent advances in diagnosis and identification procedures and principles of therapy for fungal infections.

Lectures, bench sessions & informal panel discussions will cover numerous technical and medical aspects related to fungal cultures, antifungal drugs, diagnosis and monitoring of patients, polyphasic identification of strains, epidemiology, diagnostic criteria and principles of therapeutic management of the most important yeast and filamentous fungal infections.

Online registration:
